University Policy
COVID Safety & Success Policy

1. **Policy Statement**

1.1. This policy is in effect until lifted by the OSU President and will be updated as appropriate based on local public health conditions.

1.2. In response to the COVID-19 pandemic, and consistent with guidance from the Oregon Health Authority (“OHA”) and the Centers for Disease Control and Prevention (“CDC”), Oregon State University issues this COVID Safety & Success Policy. This university policy applies to all Oregon State University locations and activities and serves the university’s goal to help reduce the risk and spread of COVID-19, which is the disease that is caused by the SARS-CoV-2 virus. This university policy may be revised subsequently to align with federal, state, and local guidance and as OSU’s public health response evolves. The definitions included in this university policy are guided by OHA’s and CDC’s relevant definitions.

1.3. When the OSU policy differs from local, state or federal mandates, the more restrictive requirements apply.

2. **Reason for Policy**

2.1. This university policy is issued to contribute to the health and safety of the OSU community during the ongoing COVID-19 pandemic, and to align with federal and state regulations, executive orders, and guidance.

3. **Scope & Audience**

3.1. This university policy applies to all university employees, students, contractors, volunteers, and visitors on university-owned or -controlled property or engaging in OSU activities while interacting in-person with others outside of their household.

4. **Definitions**

4.1. **Close Contact** is someone who was **within 2 meters (6 feet) of an infected person for at least 15 minutes** within a 24-hour period starting from 2 days before illness onset (or, for asymptomatic cases 2 days prior to positive specimen collection) until the time the patient is isolated.

4.2. Common or shared space means an area where individuals may interact such as a restroom, breakroom, hallway, elevator, lobby, classroom, large room with cubicles, meeting rooms, conference rooms and any area open to the public.
4.3. **Face coverings:** A face covering is an item affixed to the face to help prevent the spread of the COVID-19 virus, including cloth garments that cover the nose and mouth, and medical-grade disposable masks. This definition and policy exclude face coverings that incorporate a valve to facilitate easy exhalation, mesh masks, lace masks, or other coverings with openings, holes, or visible gaps in the design, material or vents.

4.4. **Face shields:** A clear plastic shield that covers the forehead, extends below the chin, and wraps around the sides of the face.

4.5. **Fully vaccinated** means a person who has received their second dose of a COVID-19 vaccine in a 2-dose series and at least two weeks have elapsed since the last dose (e.g., Pfizer or Moderna vaccines), or, a person who has received a single dose vaccine for COVID-19 and at least two weeks have elapsed (e.g., Johnson & Johnson's Janssen vaccine).

4.6. **Indoor Spaces** means anywhere indoors, including but not limited to public and private workplaces, businesses, indoor areas open to the public, building lobbies, common or shared spaces, classrooms, elevators, bathrooms, transportation services and other indoor space where people may gather for any purpose. Examples include classrooms, dining centers (except while seated to consume food/drink), recreation centers, indoor sports venues, conference and event centers and spaces, service centers, front desks, and offices that are not private individual workspaces (see definition below). Indoor spaces do *not* include private individual workspaces used for work by one individual at a time (see definition below).

4.7. **Private individual workspace** means an indoor space within a public or private workplace used for work by one individual at a time that is enclosed on all sides with walls from floor to ceiling and with a closed door.

4.8. **Social distancing**, also called “**physical distancing,**” means keeping the health authority-recommended distance between yourself and other people who are not from your household. To practice social or physical distancing, stay at least 6 feet (about 2 arm lengths) from other people who are not from your household in both indoor and outdoor spaces.

5. **Responsibilities & Procedures**

5.1. Certain public health measures may continue to be required by federal, state, or local laws in specific settings or for specific activities. All individuals engaging in OSU activities or on OSU-owned or -controlled property must continue to comply with those laws.

5.2. **Face Coverings and physical distancing:**

5.2.1. **Indoors.** Consistent with CDC guidance and OHA requirements, OSU requires faculty, staff, students, contractors, volunteers, and visitors across all OSU locations to wear a face covering in indoor spaces. This requirement is due to the rise in COVID-19 variants and applies regardless of vaccination status.

5.2.2. **Outdoors.** Face coverings may be required in certain outdoor spaces based on county, city, or local public health authority requirements.
5.2.3. At all times, OSU continues to recommend that people who are not fully vaccinated, are vaccinated but have weakened immune systems, or are at high risk of severe COVID-19, continue to wear properly-fitted face coverings over the nose and mouth in all situations and to maintain physical distancing. Face coverings are recommended to be worn in combination with other measures, such as physical distancing and proper hand washing.

5.2.4. In alignment with Oregon Department of Education and State of Oregon updated rules and guidance for K-12 indoor school setting and indoor youth programs, youth program and child care operators are to require face coverings for youth in grades kindergarten and up, unless they meet an exception as identified in the above referenced rule.

5.3. **Vaccination**: All OSU faculty, staff, and students must comply with OSU’s Vaccine Program. Details about this requirement can be found online. The OSU Vaccination Policy document will be posted online once finalized.

5.4. **Symptom Screening**: It is recommended that faculty, staff, students, contractors, volunteers, and visitors across all OSU locations perform daily health screenings for infectious illnesses, including COVID-19, and to stay home when sick and seek medical care.

5.5. **Contact Tracing**: Faculty, staff, students, contractors, volunteers, and visitors across all OSU locations are required to promptly collaborate with local health officials and appropriate OSU personnel, such as an employee’s supervisor or Points of Contact, in case investigation and contact tracing, in order to aid in disrupting the chain of transmission and prevent further spread of the virus in university settings, and in the community. See Notifications section 5.8 for additional information.

5.6. **Quarantine and Isolation**:

5.6.1. Requirements and recommendations for students and employees are based on isolation and quarantine guidance provided by the CDC, OHA, and the Local Public Health Authority (LPHA). In specific circumstances, quarantine requirements for vaccinated and unvaccinated students or employees may be changed at the direction of the LPHA.

5.6.2. All OSU students, faculty, and staff are to adhere to these quarantine and isolation guidelines unless otherwise directed by the LPHA.

5.7. **Notifications**: Local public health authorities hold primary responsibility for contact tracing, which includes notification of those who have been exposed to an individual who has tested positive. Additionally, OSU has established a notification process to respond to positive COVID-19 cases. These processes are designed to mitigate the spread of COVID-19 and supervisors are to follow this process when they are informed by an employee that they have tested positive for COVID-19.

5.8. OSU’s Coronavirus Response Coordinator, or designee, may approve limited exceptions and expansions to this university policy, where consistent with applicable executive orders. Approval of exceptions or expansion will be provided in writing.
